### LOCATION

**MAIN AUDITORIUM  
RASHID MEDICAL  
LIBRARY**

MENA Toxicology Association

[menatox.toxicology.wikispaces.net](http://menatox.toxicology.wikispaces.net)

The Middle East and North Africa Toxicology Committee was recently formed with the goal of advancing clinical toxicology in the Middle East & North Africa (MENA) region. A medical toxicology symposium during the upcoming IECM will provide a valuable opportunity to regional and international stakeholders to meet and discuss toxicological issues that are relevant to their communities.
